CyberLock®

CYBERAUDIT ENROLLER™

PORTABLE CREDENTIAL ENROLLER

User-friendly device for enrolling and updating multiple credential types into CyberLock's comprehensive software suite, CyberAudit-Web.

CyberAudit ENROLLER

Security Features
Facilitates the enrollment of high frequency RFID cards, including MIFARE® DESFire® EV3 encrypted cards, enhancing security measures.

Programming Function
An infrared sensor facilitates programming and updating of Generation 2 CyberKeys, and keyless Bluetooth and NFC locks.

Convenience
Enables users to write multiple accounts on a single RFID card, facilitating seamless access across separate CyberAudit-Web systems.

» **Connects to a desktop computer, offering a one-device solution for communication with multiple CyberLock access control products.**

» **Small, portable design requires minimal desk space.**

» **Muticolored LED lighting enables users to effortlessly identify various operational states.**
