

Corvallis, Oregon (September 2026)—CyberLock, Inc., an industry-leading access control company, is honored to receive the Security Today New Product of the Year Award for Dynamic Audit Events. This award represents CyberLock's dedication to improving security across industries.

CyberLock is pleased to share that Security Today magazine has recognized Dynamic Audit Events for the New Product of the Year Award in the category of Video Analytics. Security Today annually considers manufacturers for their New Product of the Year Award, highlighting products that are considered particularly noteworthy in their ability to improve security.

Dynamic Audit Events, powered by CyberLock's latest Software Enhancement Module, enables CyberAudit-Web (CyberLock software) to integrate with preexisting security hardware with new features across the board. Leveraging Frigate NVR and compatible cameras, Dynamic Audit Events link video clips with CyberAudit-Web audit trails, creating an enhanced record. Monitoring is provided via live-streaming and email notifications with links to video clips.

With a trusted name built over 25 years in the security industry, CyberLock proudly serves customers around the world, meeting needs across numerous applications. For more information about Dynamic Audit Events, or the CyberLock access control system in general, please visit www.cyberlock.com or give us a call at 541-738-5500.
