Corvallis, Oregon (November 2026)—CyberLock, Inc., a global leader in key-centric access control solutions, is excited to announce that *FacilitiesNet* has named the CyberKey Blue 4 smart key a two-time Vision Awards winner in the *Life Safety & Security* and *New Products* categories. The 8th annual *FacilitiesNet* Vision Awards honor the innovation and excellence of manufacturers whose products contribute to the efficient, profitable operations and management of institutional and commercial buildings in the United States.

CyberLock's most advanced wireless-enabled smart key introduces enhanced durability, improved Bluetooth 5.2 connectivity, and a USB-C charging and communication port that brings a new level of versatility and convenience to key-centric access control. Dual-factor verification is made available using our CyberAudit Link mobile app, further expanding the boundaries of what is possible with key-centric systems. CyberKey Blue 4 excels in demanding industrial environments, delivering precise, real-time control over virtually every access point in any facility.

The 2026 Vision Award winners, including CyberKey Blue 4, will be showcased at NFMT West in Las Vegas this week, November 3–4. To learn more about CyberKey Blue 4 or the revolutionary CyberLock system, please stop by the CyberLock booth at NFMT West, visit www.cyberlock.com, or give us a call at 541-738-5500.
